Re: The Randall Museum/Golden Gate Model Railroaders, Inc.

Dear Cassandra, Chris and Nathan,

This letter is directed to the three of you in your respective capacities of authorized representative of the San Francisco Department of Recreation and Parks, The Randall Museum and the Randall Friends respectively.

After almost two years of negotiations we have been unable to reach an agreement with you regarding our Club, the Museum and continued operation of the existing model train layout that is acceptable to our Membership. It appears that we have come to an end of our 54 year relationship.

Nonetheless, all of us have repeatedly expressed a strong desire that the model train operation remain in the Randall and be open and operating for the public's enjoyment. To accomplish this goal Golden Gate Model Railroaders, Inc. hereby gives the layout together with the tools, supplies and materials needed to maintain and repair the layout, all of which are in the train room, to the Randall Museum for the enjoyment of the public. Golden Gate Model Railroaders, Inc. hereby disavows any and all responsibility for maintenance, repairs, and operations as well as any changes or improvements to the layout. From this point forward any and all repairs, maintenance, changes, alterations, improvements and operations that the The Museum desires to undertake shall be in its sole discretion and solely at its own expense.

We request two things from the Museum:

1. That those Club Members who desire to assist the Museum in operations, maintenance, repairs or improvements be allowed to do so and to operate their private trains on the layout; and
2. That if the Museum for any reason decides not to continue operation of the layout, that Golden Gate Model Railroaders, Inc. be permitted to salvage any usable items from the layout and train room for donation to other model railroad clubs.

As we believe you are aware, all engines, rolling stock, vehicles, power supplies and throttles have been removed from the layout for safekeeping during the Museum's renovation. Once the Museum re-opens and the layout is up and running Golden Gate Model Railroaders, Inc. will donate the stored engines, rolling stock, vehicles, power supplies and throttles to the Museum to the extent it desires to accept the items.

Please note that we are closing our Post Office Box and all written communications should be addressed to James R. Willcox, P O Box 1382, Ross, CA 94957 You have the email addresses for the Negotiating Committee.

Very Truly Yours,

Golden Gate Model Railroaders, Inc.

By James R Willcox

Secretary/Treasurer and Chairman of the Negotiating Committee
